ADDITIONAL INFORMATION THAT MAY INFLUENCE AND/OR IMPACT DATA REPORTED:

The demographic profile of the agency's service area provides important context for interpreting local traffic stop data; however, it does not account for non-resident motorists traveling through the jurisdiction. These transient drivers contribute to the agency's racial profiling statistics but are not represented within the local population demographics used for comparison. At present, no reliable mechanism exists to quantify the volume of through-traffic or to determine the racial or ethnic composition of these drivers. This limitation reduces the precision of any demographic analysis of traffic stop data.

Additionally, the current reporting framework does not distinguish between unique individuals and those who are stopped multiple times within the reporting period. As a result, repeated encounters with the same driver may disproportionately influence the dataset, potentially creating the appearance of a higher frequency of stops involving a particular racial or ethnic group.

This form is produced in accordance with the Texas Code of Criminal Procedure Article 2.134 as required by the Texas Occupation Code Section 1701.164 and the Texas Commission on Law Enforcement. The Agency Service Area Demographics data was derived from available public data sources such as the US Census Bureau and other statistical services available to the reporting agency.
